

### **OLabs- Windows Installer Manual**

### Steps to install OLabs

**Step 1:** Double-click on "**OLabs-6-8-Windows-v2.2**" to start the installation. Refer Figure 1.

Figure: 1 OLabs Install exe file

**Step 2:** If Windows UAC(User access control) setting is **ON** then it will show you the following message box as shown in the screenshot. Click on **YES** to continue the installation. Same message box will be shown when you start and stop the OLabs. Click **Yes** to continue. (How to start and stop OLabs is mentioned in Step-8)

Figure: 2 User Account Control

**Step 4:** Click on the "**I Agree**" button if you agree with the license terms.

**Step 5:** Components that will be installed are listed in this window. Click on the "**Next**" button to proceed.

**Step 6:** Select the destination folder(recommended to keep as it is) and click on the "**Install**" button to proceed.

**Step 7:** After clicking on the "**Install**" button, installation will start. And the window below will show up. It might take time to install.

**Step 8:** After installation is completed, click on the "**Finish**" button to complete the installation process.

You can launch OLabs directly after installation by selecting "**Launch OLabs**" before clicking on the "**Finish**" button. If you select Launch OLabs checkbox then OLabs website will be launched in your default browser as shown in the second screen shot of this step.

**Step 9:** If your machine's Windows firewall is ON, at that time while launching the OLabs for the very first time, you may see the following 3 windows back to back asking for allow access. Just click on "**Allow access**". (This step will come into picture if your firewall protection is ON and it will come only for the first time. If not, then simply skip this step.)

**Step 10:** After successful installation two shortcuts "**OLabs Startup 6-8**" and "**OLabs Stop 6-8**" will be created on the desktop.

### How to start/stop OLabs?

**To start OLabs** – Double click on the "**OLabs Startup 6-8**" icon on the desktop.

OLabs will open in the default browser. You can use this just like you use the online website of OLabs.

**To stop OLabs** – Once you are done with using OLabs, double click on the "**OLabs Stop 6-8**" icon on the desktop.

**NOTE:** Once OLabs starts, three command windows will open. These command windows will remain minimized. **DO NOT close any of these command windows** or else OLabs will not work properly.

**Note:** The installation process is the same for all the classes. After installation of all 3 installers 3 shortcut menus for classes **OLabs Startup 6-8**, **OLabs Startup 9-10**, and **OLabs Startup 11-12** will be available as shown in the screenshot below.

### If C++ not installed on the system then below screens will appear

**Step 1:** Click on the "Next" button.

### Step 2: Click on the install button
